## **1. Introduction**

Throughout its short but distinguished history, the University of Limerick has been widely acclaimed for the high quality of its teaching and the excellence of its graduates. Employers are particularly appreciative of the work experience gained by every undergraduate student through our programme of Cooperative Education. Almost 1700 employers participate in this programme with over 30% of the placements overseas. However, the University of Limerick is not content to rest on its laurels as an acclaimed centre of teaching excellence and has embarked upon an ambitious strategy to enhance further the learning environment for students.

The University of Limerick is fortunate in enjoying a truly outstanding physical setting. The University is located in 200 acres of parkland on the banks of the river Shannon and provides more on-site residence accommodation than any University in Ireland. All of these factors combine to suggest that you consider seriously the University of Limerick as the institution where you pursue your undergraduate education. I wish you well as you proceed with the selection of a University and assure you that the University of Limerick will be privileged if you choose to entrust your undergraduate education to this institution. It is a trust that we will endeavour to justify.
